

The Lamp Huddle

"She was the lady with the lamp. We carry it together now." — A free, monthly, 45-minute live call for nurses learning to build and steward their own AI Operating System.

Open to **students, staff nurses, leaders, and educators** — across all three spheres: **Personal, Professional, and Community / Entrepreneurial**. Whether you finished the 30-Day Roadmap, just took the SOUL Quiz, or are still deciding where to start — you belong at the Huddle.

The rhythm — every month, the same calm shape

Time	Segment
0–5 min	Light the lamp — opening reflection on stewardship and the month ahead
5–15 min	One demo — a nurse or facilitator shows one workflow they run (a Morning Huddle, a Kardex, an evidence-first brief)
15–30 min	Open Q&A — bring your prompts, your stuck points, your safety questions
30–40 min	Stewardship round — share a win, a worry, or a lesson
40–45 min	Close — one micro-action for the month and the EDENA tier check

Who it's for

- **Student nurses** using AI for learning without losing clinical reasoning
- **Staff nurses** reclaiming time from charting and admin
- **Nurse leaders and managers** implementing AI safely in their units
- **Nurse educators** designing AI-supported learning with integrity
- **Nurse entrepreneurs and advocates** building projects, content, or programs
- Anyone curious about the **Heart of a Nurse** approach to AI

What you'll bring home

- A clearer next step in your AI OS journey
- One workflow you can use this month
- A community of nurses who share your values
- Direct answers to your governance, safety, and setup questions

Ground rules. No PHI. Ever — we share patterns, not patients. **No clinical decisions** — we support nurses; we do not replace judgment. **Stewardship first** — inclusion is not validation; every tool gets an EDENA tier. **Human agency** — agents propose, humans judge, nurses steward. **Confidential by default** — what's said in the Huddle stays in the Huddle unless the sharer says otherwise.

Schedule & how to join

Cadence: monthly at first, 45 minutes — we'll add sessions as the community grows.

Dates: announced by email to the community list — join the list and every invitation finds you.

Format: live video call, recorded for members who can't attend live. Recordings will live in our community home, opening soon.

1 Visit **Start Here** at nurse-ai-os.org, take the SOUL Quiz, and download the free starter kit.

2 Join the community list: email **great.ai.nurses@gmail.com** with your name and role — you get the newsletter and every monthly Huddle invitation. A human adds every name personally.

3 You'll receive the calendar invite, video link, and prep prompt before each call.

First Huddle agenda

Light the lamp: why we're here — Florence's two instruments • **Demo:** the SOUL Quiz and your first win in 10 minutes, in the browser AI you already have, no installation • **Q&A:** bring your setup questions • **Stewardship round:** one fear and one hope you have about AI in your work • **Close:** your one micro-action — Day 1 of the 30-Day Roadmap.

Bring with you

- ☐ Your laptop or phone (camera optional, voice encouraged)
- ☐ Your role and sphere (student / staff / leader / educator / personal / professional / community)
- ☐ One question, one win, or one worry
- ☐ Your SOUL file, if you've taken the SOUL Quiz

A word on safety. The Lamp Huddle is a learning and stewardship space — **not** clinical guidance, **not** vendor recommendations, **not** a substitute for your facility's policies. We do not discuss specific patients, employers, or proprietary tools that would breach confidentiality.

Until the next call: begin at **Start Here**, start the **30-Day Roadmap**, make the system yours with the **six workflows** — and tell one nurse. Stewardship begins with invitation.

Carry the lamp. Keep the ledger. We meet at the Huddle.
